Group Event Information

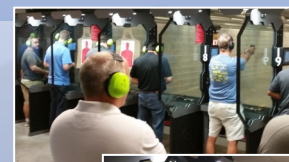

Two Locations to Serve You

Point Blank Range offers TWO state-of-the-art indoor shooting facilities for you and your guests to enjoy. Each location has a large selection of rental firearms, including handguns, rifles, shotguns, full-auto, and suppressed firearms for a once-in-a-lifetime experience. Both locations offer private club areas and multimedia-capable conference and training rooms allowing you to entertain and educate your guests in a safe, secure, fun, and comfortable environment. Parents, bring your kids! Ages 8 and up welcome!

Training Classes

Point Blank Range's Training Academy is the home of NRA Training Counselors and more than 20 instructors certified through the NRA and the North Carolina Department of Justice. Our curriculum offers courses for all types of firearms including handgun, rifle, and shotgun. We also offer progressive courses for all skill levels from beginner to expert. Youth programs are available for children ages 8 and up. If you prefer non-firearm related training, we also offer preventative defense training as well as personal defense techniques.

Firearms Simulator

Point Blank Range brings yet another level of entertainment and training to the table with our simulator system. This interactive training system allows users to practice marksmanship, compete against another user, and train with real-world scenarios in a non-live fire environment. If you would like something even more realistic, these same scenarios are offered through simulation on the ranges with live-fire using real firearms!

Catering

Point Blank Range utilizes catering services from several local restaurants as well as private catering services. We can arrange a full meal for you and your guests or a variety of hors d'oeuvres. If we do not already have a relationship with your preferred caterer, we are more than happy to accommodate a provider of your choosing.
